Question 11. Any comments about the meals

61 responses

Gala dinner food was good. Slow due to overwhelming number of participants. Room was unsuitable for dinner/dance/music

Lunch at Aeroscopia restaurant was poor - Gala dinner was too lengthy

Gala dinner too noisy, too crowded service not up to par. Lunch historical tour very good and inventive, lunch in Albi and Carcassonne fair for the number of attendants.

Gala Dinner was too long - didn't leave any time for music and dancing

Lunch in Carcassonne - chicken was inedible (solid!) due to being overcooked

The meal in Albi was excellent. The choice of restaurant was very good. With regard to the Gala Dinner, the meal was fine, however the tables were quite crammed and the service took too long. Also I am not sure whether the pre-dinner presentation had the right impact.

The Gala Dinner was late with slow service

Average Gala dinner 4 hours much too long and bad

The delivery of the meals at the Gala Dinner was slower than desirable and the room was too crowded because the chairs were too large in a limited space. Some people had to sit by themselves on the 1st floor. A bigger restaurant venue is required..

The hotel breakfasts were a mixed bag. They seem to be running short of different items regularly

The lunch at Airbus did not meet our expectations (we are being nice).

Gala dinner was too cramped and too long. No time to mix before or after the dinner. Dress code should be more formal for a gala dinner.

It was not easy to get the food at the reception night as it never reached the far end of the room where the chairs were. So effectively hardly ate anything and I had two glasses of fruit juice making it an expensive evening. I heard that the champagne was excellent... but I do not drink. Overall the meals were excellent and well balanced with lovely local produce.

The lunch on HCWalking Tour was superb! Excellent choice!

Breakfasts at the Novotel Wilson were barely adequate, and by Sunday they had no more smoked salmon, yoghurt or any type of jam!

Warm Champagne and White Wine during gala dinner, cramped.

We left at 2310hrs as the Gala desert was being served - too late. Airbus lunch was slow and average. Beziers lunch looked good but I was sick, possibly food poisoning?

The room for the gala dinner at NOVOTEL was too small and noisy. Not adapted for a large attendance (nearly 200). Technical presentation not well adapted during aperitif.

Lunch at Albi was very good and memorable.

Very good wine

when we arrived for gala dinner there were hardly any seats available, same for about 30 or 40 others! Gala dinner was OK but not great. In general food (and wine) in Bilbao was much better.

Excellent gala dinner

It was increasingly better through out the tour.

May be too much chicken and, during the gala dinner, may be too much time between courses (main course - cheese and cheese-dessert) but on the other hand it allowed more social interchange

The gala dinner was below expectations, the setup was not what had been planned and requested, preventing some members to fully enjoy themselves, and preventing a dancing session at the end of the evening

We are both vegetarian and the options were not great.

all the same food : chicken filet and polenta !

Carcassonne was average, the rest were excellent

Very good

Gala dinner too heavy

lunch at Airbus was ok but took a long time 75mins between arrival and being served.

The meals often had too much time allocated - at the Airbus, we arrived on time at 12, and did not get even soup till 12:45, and the meal took 2.5 hours. It would have been nice to spend an extra 30 minutes at the museum instead

What a Risotto !!! An accident I suppose , the restaurant at Airbus is supposed to be a good one ...

Too long spent over lunch in Aerospace - not enough time to spend in museum

Nothing to report

Cocktail and Gala dinner venue was too small for the group. The outside presentation at the Gala dinner could have skipped and a small group of musicians / small band would be better.

Meal at Airbus quite average and sitting disorganised

wines were good

Breakfast in Wilson Mercure was poor and probably the badly maintained orange pressing machine made us a sore stomach and diarrhoea on the way back.

they met my expectations

Gala diner with not enough setting for 15 people !!! We waited 45min before sitting

There organization of the gala dinner by the Wilson hotel was poor. The table layout had been set for 11 people, while most of the attendance consisted in couples. It resulted the tables being tightly occupied by 5 couples with no more room. In conclusion, several of us were left without a seat and we ended up having our dinner in a makeshift dinner room on the second floor, remote from everybody. Not a pleasant experience.

In general light and simple meals.

No, all excellent.

Too much chicken !

Lunch at the Aeroscopia restaurant was 2.5 hours for average food and slow service, would have been nicer to have a quick lunch and spend more time enjoying the Aeroscopia museum. Regret for the Gala dinner it went on quite late and we could not stay for the end.

Good value for money

Gala dinner was too cramped and high ambient noise

It is really difficult to serve so many people all at the same time, so there was some variability on the quality of the food and the speed of service. Overall the restaurants did an excellent job.

Welcome cocktail was good for meeting participants, however the 70€ was somehow excessive. Gala dinner: Lack of space. Side room for drink before dinner would have been welcome: champagne served at the table warmed up before we could use it.

very good

Novotel staff at the gala dinner appears to be less than perfect prepared, with delay, last-minute additional table settings, and slow service. But overall quite good.

All good and awesome.

I could not participate to visit at Airbus unfortunately (not enough room)

Gala Dinner: good choice (foie gras, fish) but white wines/champagne had been distributed well in advance of the meal and were WARM.

Gala dinner - slow, not enough service staff.

3 days and three (3) times CHICKEN (not good for money !)

The only lunch that didn't match expectations was at Airbus. I guess that's not abnormal... after all they make aircraft. Not food.

general (airbus/Carcassonne): OK can improve choice and quality vs money. Gala: Room was the pb for 200 people, suggestion tables of 11 (5 couple & 1 single). Cocktail: room again, circulation, service, drinks excellent

Meal at Airbus was below standard

overall good and varied

Question 12 & 13. Any comments about the tours and guides

53 responses

Tour Guides in Albi and Carcass one were outstanding. Not so much the lady in Toulouse afternoon

We are old people, the 3 hour morning walk in Toulouse was too long and tiring. Helene, our guide, could/should have arranged a stop (say for coffee) half way through

The tours were excellent. The guides were very knowledgeable and having the radio system was a huge advantage. Furthermore the distances travelled by coach were very reasonable.

Excellent tours, and guides

I went on the Toulouse short tour , then decided to cancel the Beziers visit because I felt that I needed to spend more time in Toulouse , specially this being my first visit. So I spent one full day in the city at the end .

For some older members guides need to go slower and provide comfort breaks

Ok

The Toulouse walking tour guide we had did not recognise the need to walk slower (despite being asked) and one participant was unable to keep up with the group, so four of us were left behind and had difficulty finding Restaurant 62. Not good.

Didn't come across the DMC/Agent

They knew their jobs

Tours were good and guides informative. Always need more time!

Vers good

Excellent guides, extremely pleasant visits.

Clement was excellent particularly at the Lautrec museum. Annelisse at Airbus was good too.

Elena was really very good! Enjoy her professionalism

Our guide for the tour of the Toulouse-Lautrec museum was outstanding.

very uneven skills among them, from good to bad English accent, from very interesting to some monotonous ones

Our Albi guide was outstanding in his knowledge and English vocab - he had us rivetted to each painting.

Well organized.

I had same guide for 2 excursions. She was very good. Just perhaps a bit too much information.

No comment

Excellent.

Congratulations for the organizer(s) and particularly Philippe

We should request that English speaking guides are native speakers, to ensure that all members can understand them well.

no collect for tips organized

Special compliments to Clément (guide in Albi) who was so knowledgeable about art history, and so passionate about his job

Very interesting

This worked really well, despite the logistics challenges. Due I think to very good organisation

The tour guides for Albi (the young man) and Carcassonne (Elena) were outstanding! Bravo!! Unfortunately, the tour guide for the Toulouse short tour was not well prepared by the tour company, had difficulty getting our group organized, and the tour ended up being much shorter due to wasted time.

The Albi tour guide Celine was really interesting & very passionate about Albi

Short tour of Toulouse was a bit too short.

Nothing to report

The groups separation and initial organization in the morning were chaotic. Guides were a bit lost, despite the Alliance team did an excellent job with the name tags and who goes where at which bus. The only professional guide who managed this very well was Helene who guided us at Carcassonne.

Very professional and pleasant to listen to.

Too much safety in the Beziers site.

As I was in French buses I couldn't answer your questions about English speaking guides

Very good

Overall interesting and well organised

Who is Frederick? I don't think we ever interacted or met!

Albi was the best. Not enough time in Airbus

Regret we were only given a short 30 minutes to visit the Aeroscopia museum, I would like to have spent more time in the museum looking at all the fascinating airplanes!

They did a very good job. They were very knowledgeable

Never met Frederick

Very professional, knowledgeable and entertaining

Our Abli guide was not great and the guides had no clue how to operate the radio systems, so more time than expected was used to get the group going. The systems that use channels are much easier to use and more efficient as you can hand them all out on the coaches and split the groups quickly

Severine, our guide was very professional, well documented and pleasant.

quite interesting

All good

We did not attend any tours, so please ignore my answers to the next 3 questions, which I am obliged to answer.

The city walk was great

Educational and interesting

Carcassonne guide was very pleasant, very interesting, full of pep

Very professional tour organisation : logistic , guides en interest

Question 14 & 15. Any comments about amount of walking and time on buses?

34 responses

None

very good - no issue - could have done with more walking :)

Helene let four of us oldies drop behind, did not keep a look-out and lost us! As a result we had difficulty finding the restaurant whose name we knew - but not the address. Found thanks to Google maps! Rest stops were needed but not offered.

See previous comment.

Bus departure too much away

All ok

Walking and time on the buses was reasonable

No

We carefully chose our tours so that there was not too much walking. Effectively we opted for the morning tour to Airbus so that we could leave the tour when it returned to Toulouse. Thank you Mike for putting us on the morning tour as requested. So all together the walking was just right.

Excellent!

For walking some persons had some difficulties. For me and my wife that was OK (71 and 74 years old)

They both were reasonable.

Did not participate

Just right.

Reasonable

The travel time to/from Béziers was a bit long compared to the length of the visit. And we could have left at 8:30 instead of 9 and enjoyed a longer stroll at the locks.

Another very well organised reunion!

It was just right, not too much info from guides.

Nothing to report

As expected.

Very good balance of travel and visits

Perfect

No comments

No.

How to best manage our less mobile members

good plan

No further comments.

Very well planned

Too early in the morning: I'll rather leave later and come back later (vacation time!) !

Normal. Buses were comfortable and clean

Very reasonable, good timing, caring for people reduce mobility

Time in buses ok and well controlled , we did not suffered of traffic jams!!!

Did not want long bus rides

Question 16. Any comments about the registration?

39 responses

None

No

WHICH REUNION REGISTRATION AT THE HOTEL?

It would have been better to know in advance who is on what tour - so we could plan to be with friends who we were traveling with. or more clarity for a process for special requests

No problems at all!

The painted ceramic gift by local artists was well received and appreciated.

I would replace "outstanding " by "Excellent " ;)

No registration as planned at hotel mercure

No comments

No difficulty; Smooth process.

Liked the app.... but remember not everyone is digitally connected internationally.

There seemed to be a major disconnect somewhere in the registration process for the Novotel Wilson, meaning that they could not reconcile the payments made with the Member making the reservation.

which reunion reception at the hotel???

No proper registration desk at the Novotel or late installation

I had trouble with the paying system, twice. Thanks to the patience of our Jolly Web keeper and Finance Director he reset the system to enable me to pay.

Easy, efficient. Well done

Perfect

All went well.

We were initially told that we could only stay at one of the 3 hotels. But later on, there was a message just asking for proof of *a* hotel booking, which could have been elsewhere. Some of us may prefer to make our own arrangements (AirBnB, etc.). I feel like we were forced to spend a certain amount with the Accor chain.

Could not be better

Novotel had really poor customer service from management who didn't care or even answer my complaints (fridge not working and we came to buy cheese!). Some of the staff were polite.

My booking was updated one month after my reservation. The person in charge of reservations was on vacation and there was no one to replace her and follow up

Quite efficient

Ras

Did not need to register at the hotel. The packages were in the room.

The oldest do not zap and book fast and end up on the waiting list!!! The proof is that we are amongst the last 23 to respond to this questionnaire!

No.

Although the staff at the Novotel Wilson were very friendly and helpful, it was a confusing booking process at the Novotel Wilson; a) even with a confirmed reservation I was not on the confirmed members list until the Alliance team kindly intervened to fix it for me, b) even with my reservation paid in full by credit card the Novotel could not find record of my payment until I sent the confirmation from my bank, c) I gave the hotel my Accor member number 4 times (2 times before arrival, again at arrival, and again at checkout) to finally get my member number registered.

they put us in the wrong room

Worked well

No further comments.

I did not realize that registrations had to be made urgently , thus could not participate to some

Easy

info parking not clear (Mercure Saint Georges), impossible to park car for unloading luggage, lift parking not working, check out & payment not obvious etc..

Very good , top professional organisation

Ok

Question 19.

Any comments on Health, Safety and Environment?

30 responses

None

I don't understand this topic. The column I don't care is missing

N/A

No health problems experienced

Ok

No comments

As individuals we assess safety as we go along for ourselves. The reunion was very safe if it wasn't we would have passed on events - personal choices.

Quite good

Several of us had mysterious illness, not Covid, possibly Norovirus?

No comment

could not care less after 30 years in the field

Caught a cold but not Covid

Nobody asked about health! Environment: don't understand the question?

Nothing to report

No major threats during this stay

Ras

We need to enforce the rules of not standing while the bus is moving!

No.

Many caught a sore throat/cold possibly at Cramped Gala dinner - but no Covid!

No further comments.

All good. These days travellers may get sick. One case of COVID is not enough to judge health and safety of an event. The event was a huge success and my wife and I enjoyed it.

We contacted covid with my wife during our stay in Toulouse

I really don't recall anything special

cocktail & gala: room safety with 200 people: pb

Environment???why this question?

Question 20. Overall, what I liked best ?

Question 241. Overall, what was not much appreciated?

94 responses

Nothing

weakest link was the Gala dinner

Lunch at Aeroscopia restaurant

Room size in the hotel

noisy room for welcome cocktail and gala dinner

too much delicious foie gras preempted appetite for the rest of the meal

Gala Dinner - including the 1 hour presentation on Satellite - it was too technical for many of the spouses present. Besides people are there for holiday - so presentations like that should be totally avoided - and a more festive atmosphere needs to be created

Walks were far too long for old-timers like me!

The Gala dinner fell short of expectations.

Airbus timing, 3 hours lunch (cold food), barely any time left for museum

Thé room for the gala

The "farewell" which is very sudden, at all our reunions though. Am not sure what the best solution is, because actually there is no farewell. People just disappear.

Gala Dinner not ready so everyone waiting outside, the talk delayed things, so no time for the DJ

One missing table at the gala dinner

Food

As mentioned above, the speed of service and seating space at the Gala Dinner

The Gala Dinner was very crowded and we couldn't see the presentation because people with no seats stood in front of us the whole time until they finally got seats upstairs. The hotel staff did a good job considering how tightly packed we were in there. Also the fact that we were split up between hotels meant it was more difficult to socialise over breakfast.

Mismatch of timetables between site schedules and WhatsApp announcements

Walking tour of Toulouse

Lunch at Airbus

Gala dinner was poorly organized even though the food was good. Too crowded.

3 hotels are not a good solution to meet people. Cocktail too expensive. Presentation at gala dinner should have taken place at another time. Acoustic of the Sofitel restaurant was not good.

Nothing to declare

Nothing in particular.

Airbus visit, bus tour around buildings !

Welcome night

the visit to the violet boat at the end of the Toulouse walking tour.

Being spread over 3 hotels, and with no group dinners apart from the Welcome Cocktail and Gala Dinner, it was difficult to meet up with everyone that I wanted to. However, I fully understand the difficulties with organising hotels and dinners for 191 people!

poor English of the interesting speaker

The digital space lecture was totally unnecessary. What did I learn from this presentation ? My answer is : Very very little

Room cramped during the gala dinner, no space to dance, bad supervision from DMC on its installation. Warm champagne and white wine.

Gala dinner was cramped and I was very embarrassed and upset that certain attendees were extremely rude and selfish in talking during the presentation. That behaviour was totally unacceptable.

The space available for the gala dinner

Gala dinner was mediocre. Presentation was too technical and uninteresting especially for spouses. I hoped for music and some entertainment, dance etc.,

nothing to mention

Gala dinner : presentation of the guest of honor "wrong time, wrong place"; dinner way too long.

A bit disappointed of the food on some venues - chicken chicken

Gala dinner

Purely personal: lack of sleep between gala dinner and getting up early next morning for excursion.

lots of irrelevant chatter on whatsapp group, should be used for relevant stuff.

The Scientist speech at the gala dinner

the gala dinner setup, as mentioned above

The CNEC presentation at the Gala dinner was not necessary. Also, vegetarian choices for meals were not great.

lunches : cheap and tasteless

Too much time spent taking group photos

Technical presentation during the Gala dinner

Novotel Wilson management.

Short tour of Toulouse was poor, probably too much time spent for lunch at Airbus (2.5 hours), there was a disconnect between the itinerary (printed, vamos) and the instructions the tour guides had on the tour end times. This resulted in some confusion about when to meet up to depart on each day.

The Gala boring atmosphere : lucky we could exchange between old colleagues ...

Location for cocktail and gala dinner was not large enough

May be the dining room for the gala dinner wasn't big enough

Gala and Cocktail venue being too small

Gala diner : too many courses, cramped sitting arrangements - lack of tables for a number of members who had to wait before some action was taken. Not the boat in Berlin but not a good image.

Presentation at the gala. The topic is of interest but the presentation was too long. Should not exceed 20 mn.

Breakfast at Novotel Mercure

Gala diner

The group was larger than I'd prefer. There were many people that I never had a chance to spend any time with.

Except for the first day dinner cocktail, we did not have many chances to mingle with the full crowd. After that event, we spent much of the time with somewhat the same group of people. More cocktails dinners with the full group would have been welcome.

The gala dinner venue was way too tight for the amount of participants.

Nothing. Another great organization.

With three hotels and organised groups sometimes difficult to get together with old friends.

Parking at Mercure St George

Nothing, really.

Gala dinner was constrained by too many people or too small place

Space at Gala Dinner. No music . Did not see the DJ !!

As mentioned, lunch at the Aeroscopia restaurant was 2.5 hours for average food and slow service, would have been nicer to have a quick lunch and spend more time enjoying the Aeroscopia museum.

Albi cathedral as we did not visit the hart of Albi Cathedral

Novotel Wilson drains were blocked when we arrived. The room smelt badly. After some discussions managed to change rooms. We arrived on 22nd.

Hotel room was very small

Keeping the SLB family spirit alive and well

Narrow beds in the Wilson Hotel, I felt they had sacrificed space to allow for a larger bathroom so could not fit a standard hotel bed in what was left. Maybe they cater for singles in most of these rooms.

To see some participants queuing to get a table at the gala dinner

nothing

No further comments.

Nothing

N/A

The gala night the seats were very tight and I guess (which I am probably wrong). We could get a bigger venue in another Toulouse neighbourhood.

Presentation before gala dinner

gala dinner room too small for the number of attendance

Satellite presentation was difficult to follow as we could not see the screen(s)

The lilac house on the city walk

Gala dinner slow service.

Buses too early, overall bad food, groups are too big/numerous (120 to 150 should be a maximum for any future Alliance meeting !) !

The Gala Dinner talk seemed a bit technical after a very long day. Something less technical and more entertaining would have been appreciated...at our table.

Lunch time food

The overlong speech at the Gala dinner - plus his English although accurate his accent made understanding difficult. Neither the white wine or Champagne served at the Gala dinner was not cold, but was in fact warm.

not enough diner or lunch to meet people we did not see for ages

Hotel Mercure Wilson ,: the room was too small and the hotel does not even deserve 3 stars, certainly not 4 meal at airbus

Long Bus rides

the talk during gala dinner (Satellite talk) was not necessary , could have been done BEFORE dinner on request. Gala dinner was too long also (cheese not necessary , could be on request)
